Phoenix May Meeting: CPR TRAINING

We will once again have the fire department with us to teach and certify us in CPR. We will need to begin the meeting EARLY - **It will start at 6:30pm on May 12th.** If you wish to participate, please arrive prior to 6:30 and bring \$15.00 per person to cover the cost of the class. Everyone is welcome, members and non-members alike. CPR is something everyone should learn, you never know when you might need to help save a life. We hope to see you there.

Phoenix June Meeting: *Poisonous Critters of the Desert*

Randy Babb, with Arizona Game & Fish in Mesa, will be our guest speaker. The desert is full of all sorts of critters, and he'll be teaching us about them. What to look for, what to avoid, and what to do if we have an encounter with one of these little darlings. Phoenix is a city, but it is still in the desert, so you may encounter some of these animals in your own yard. Why not attend and learn something new!

*Come On Phoenix Members...
Attend Your Meetings!!!*

AUGUST CAMPOUT!

Yes, plans for the August Campout are already underway. The Cholla Chapter will be sponsoring it this year. Jerry & Ila Ketelhut will once again be hosting this "cool" event in the pines. They have reserved the Elks campground and it will be held August 7th - 13th. The Elks Campground is 36 miles North of Strawberry, 32 miles south of Winslow on Highway 87. A pot luck is planned for Saturday night, so bring your own meat and a dish to pass. There will be games, etc. so they ask that each person attending bring a prize. Maps and further info in future Chatters.

Letter To The Editor

Dear Publisher/Editor

With regard to the Cholla Chatter Volume 39, No. 3, March, 1996 edition:

-and in particular, page 6 and the picture displayed thereon entitled, "Cholla Support".

I have thoroughly enjoyed each edition of the Cholla Chatter for several years, but I am greatly disappointed to note that editorializing has now entered into the newsletter.

The Chatter is not the place for politics whether it be the position of the editors or the write-in comments of the readers.

The masthead of the Cholla Chatter lists the newsletter as an "Official Publication of the Cholla Bay Sportsmen's Club" and that is what it should remain!

If it is the editor's intent to continue this line of reporting, then let the contributors be "Sportsmen" and publish the other side of the question, as I am sure there is one!

Best wishes for a greater publication.

Name withheld for obvious reasons!

Take a Kid Fishing

One of the greatest gifts with which an older person can endow a younger one is an appreciation of the fun of fishing. What kind of fishing? Any kind that's available that's not too difficult.

Lacking a kid of your own, why not borrow one, and keep a fatherly eye on his or her progress? The important things are to keep education simple, at the start, and to be sure instruction is given where the youngster can catch fish. Tackle need not be a problem; keep it inexpensive and simple but efficient so as not to be a handicap to progress.

Teach a kid to fish and you will supply him with a lifetime of memories.

MMM ... GOOD!

Ron Engle-Wilson cooked up a fantastic meal at the Phoenix April meeting. He demonstrated Dutch Oven Cooking and showed us how easy it really is. He made beef stew, stir fry and peach cobbler, while we watched and learned. He promised to send the recipes and how-to info to the Chatter for publication soon. We really enjoyed the meeting, and especially enjoyed the good food. *Thanks a lot Ron!*

QUE PASA

Sandy Moore is giving Spanish classes to some of us. We have a good time trying to learn all those verb conjugations. Hope it sinks in soon.

We women in Cholla Bay held a Mexican Bingo recently at the OBSC building. About 19 enjoyed lunch and bingo, and everyone wants to do it again soon.

Gloria Frederick had a birthday recently and was given a surprise party at the home of Art & Betty Moore.

The OBSC will be having their annual bash on April 20th, but by the time this issue comes out it will be history.

Pete & Shirley attended the wedding in Phoenix, April 6th of their daughter Lee. Congratulations to the newly-weds.

Big Mama (Thelma Brown) arrived in Cholla Bay on Friday, April 12th for about 5 weeks. Welcome, Big Mama!

Transformers, and even lines are now going up on our electric poles.

I've run out of things to write about. If anyone has anything for this column, you can send it to Dave & Kelley, or just give it to Pat Goodin or Betty Moore. We both send articles in every month and we can send it along with our articles. Just make a note that it should go in the QUE PASA column.

Rumor has it that ELVIS will appear at the Fish Fry.

ANNUAL STEAK DINNER

The Cholla Bay Sportsmen's Club once again will serve a steak dinner with all the fixings. It will take place on Sunday, May 26th at the Fry Shack (Gus Brown Plaza) in Cholla at 5:00 pm. The price of the steak dinner is \$7.50, with all proceeds go to help support the Radio Room (Your safty network) and the CBSC. There are a limited number of tickets available, so get your tickets early. Tickets are available through Pat Goodin in Cholla.

This steak dinner is a casual barbecue cookout with great food and great people. You will need to bring your own beverages and silverware, hope to see you there.

PROMOTORA TURISTICA PLAYA ESCONDIDA, S.A. DE C.V.

CHOLLA BAY HOMEOWNERS

May---the beautiful month for all of us to honor our mothers. Americans celebrate the second Sunday of May as the official Mother's Day while the Mexicans honor mothers on May 10th no matter what day of the week the 10th falls on. As a result American mothers visiting in Mexico at that time get a double header and can get waited upon by the family for two whole days. No one deserves those favors more than our mothers.

May 24th begins the third phase of the CBSC's 41st annual fishing derby. As the waters warm up different species of fish enter our territory and present new challenges to the fishermen. Excitement always mounts up as the closing date gets near. If you haven't already signed up there is still time to get to fishing and lots of luck to all.

It looks as if it won't be much longer and we really will be able to "Flip the switch" and light up our houses. April's issue of the Chatter showed pictures of the power poles being installed and another of the transformers being put in place. Progress is continuing and now the lines are going up. True....it has been a long time coming but well worth the wait.

On your next trip to Cholla Bay please take notice of the new signs in front of the Company's main office, Playa Escondida, S.A. DE C.V.. The sign also displays the new Company logo. This office is located about a half a block on the right hand side of the highway after you pass the big sign welcoming you to Puerto Peñasco (where the Red Cross is usually sitting). This office is equipped with phone, fax and complete information to be of service to our clients and also welcomes new comers seeking information. To call for more information or to make an appointment direct dial from the states: 011-52-638-3-5790.

--- MR. FISH TACO ---

If you've been to Cholla, you may have seen "Mr. Fish Taco". It is located on the main road into town, just past JJ's cantina, on the corner where they launch boats. It has a small kitchen and the tables are located outside. You can sit near the road and watch the traffic go by or sit at the tables that overlook the Bay. The food at this little place is excellent! My family and I have tried everything on the menu, and have never been disappointed. My husband says the Torta is the tastiest item on the menu. A torta is a type of sandwich, with seasoned shredded beef, lettuce, tomato, avocado all served on the sweet football shaped breads that are so good. I have a harder time picking my favorite dish. The fish tacos are fried fillets served on either soft corn or flour tortillas, with cabbage and lime, mmm. They also serve shrimp tacos this way. (Said to be the best in all the Rocky Point area). The Beef tacos are made with the shredded, seasoned beef and are fried, topped off with all the works. The menu has everything from bean burritos to fried shrimp platters and shrimp cocktails. The fresh chopped salsa is "muy bueno". The staff is extremely friendly they make everything fresh when you order. If you've never eaten here, give it a try, you won't be disappointed and I assure you that you will keep going back.

One of the things I love about Mexico is the food. I'm always looking for new and different places to eat. If you have a favorite, out of the way, eating place in the Rocky Point / Cholla area, please let us know. Write a small review and sent it to the Chatter, and maybe this could become an regular restaurant review. Please share your findings, and make Mexico a little more enjoyable for all of us.

Irma Brown proudly poses with her monstrous 350lb. Black Sea Bass caught earlier this year.

Tucson Chitter Chatter

"Important." The word has many meanings to different people. The dictionary did not fulfill my need of explanation as I sat here trying to fulfill my obligation of some chitter chatter. I ask myself, "What is important of news which is a month or more old?" The answer was right in front of me as I stared at the *Printers Press* put out by Alphagraphics. Quote by Abraham Lincoln, "Always bear in mind that your own resolution to succeed is more important than any one thing." So, with this thought in mind I will proceed to let you know.....

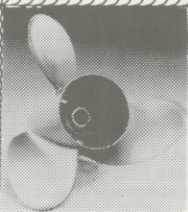

The April meeting of the CBSC was held in the dimmed lighted room of Las Margaritas Restaurant on Grant Road. Jerry Kitchens presided over the meeting and was assisted by Sylvia Kitchens and Sandy Maeser. Jerry greeted members and guest followed by roll call allowing us all to acquaint ourselves with faces and names. The group was small in attendance but, high in spirits, no, not high in drinking spirits, happy, just happy. Reports were made by Secretary Sandy Maeser and Treasurer Marion Hotchkiss. Committees reported of no new members and no new illness that we know of. We had some colorful stories of incidents during spring break and Easter. We also had reports of some critical mishaps and we all hope for the best to those involved. We had a break and returned to our popular raffle. Thank you to all who donated the prizes which cause some excitement when one doesn't win the wishful item. Glenn Hotchkiss is in charge of drawings and each winner draws a ticket. Winners by first names; Jeanne H, Pete P, Richard H, Carla S, Bill H, Marion H, Stanly R, Jerry K, Teresa W, ---Those were door prizes---missed two winners. Sorry. Raffle; Billy Jo C, Shirley P, Carmen S, Ray H, Glenn H, Clarito W, Swartz, Ray H, Glenn H, Bob R, Billy Jo C, Nikki H,----any resemblance of correct or incorrect winners is purely coincidental. Meeting adjourned.

Congratulations to Grace Schooner for winning an award from the Archaeological Advisory Committee.

The happenings at Cholla Bay for the past, present and future have filled the calendar. Cholla Chatter is doing a great job in keeping us informed and hopefully you all have had the good luck to participate in all the activities.

Everyone is important in Cholla Bay, everything that happens is important in Cholla Bay and I would like to ask you, if you were another person, would you like to be a friend of yours? Time works wonders. Let it happen in Cholla. The road is never long when we travel with good company.

Respectfully, Tere

The Bimini Twist

Although it appears difficult, this knot can be completed in not over a minute after a little practice. While a post or something similar can be used to hold the loop, it is easier to let another person do it. The "Bimini Twist," or "Bimini Roll," is the formerly preferred way to double a line and retain nearly 100% of the strength of the unknotted one. It is used both in fresh and saltwater fishing to attach leaders, make shock tippets and to strengthen terminal tackle.

In the drawings the loop has been made small and the number of twist in the line has been reduced from the necessary 20 to keep the drawings from being too wide to fit the page.

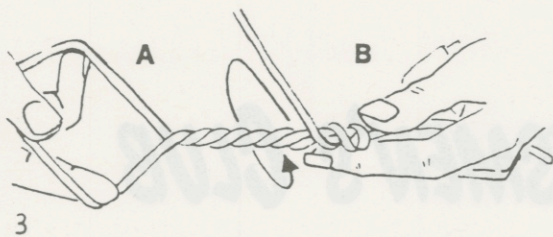

1. Double the line to form a loop somewhat longer than what you intend to end up with. One person (B) should hold the end of the line. The other person (A), holding the loop end, proceeds to twist the loop 20 times by keeping his index finger in the loop and making circular motions with his wrist.

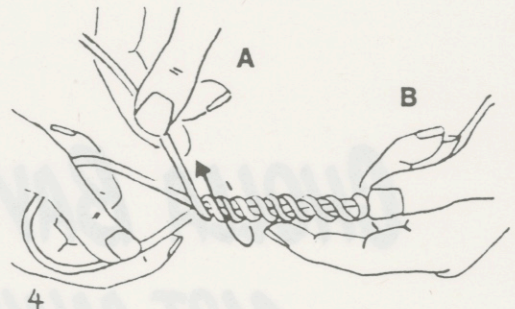

2. Once the 20 twist have been completed, separate the two strands of the loop (which will be much larger than illustrated) and working back towards the other end being held firmly by (B) to tighten the twist. Then (B) pulls the lines apart.

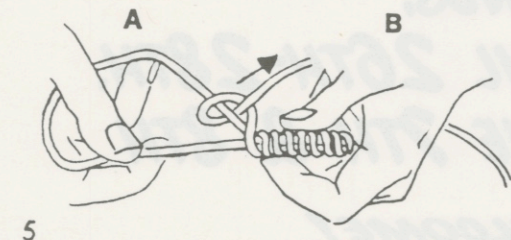

3. (B) should place his fore finger on the twist and bring the running end of the line towards the loop. As (A) continues to open the loop, the twist begins to rotate.

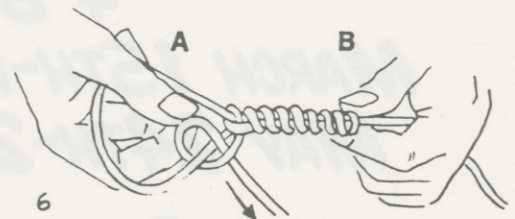

4. As the twist rotates the running end is automatically wound around it. Care must be taken at this point not to let the running end wrap over itself. The wrap should continue until the end of the twist is reached.

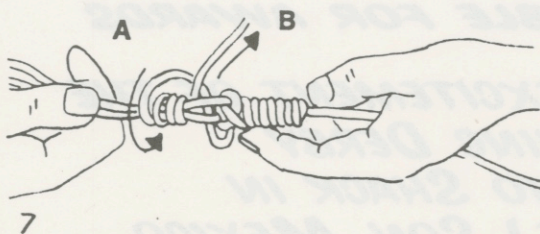

5. Now (B) must hold the wrap carefully to stop the rotation and at the same time execute a half hitch around the right base of the loop. (A) is still keeping the two lines of the loop separated.

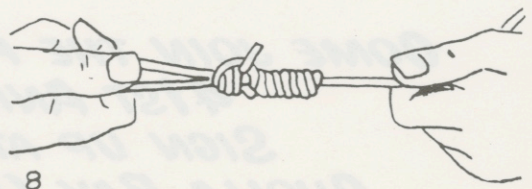

6. Then another half hitch is tied about the left base of the loop. It is now safe to let go of the wrap; it can no longer get away from you.

7. To finish the knot off, a little clinch knot is tied about both lines of the loop at the base.

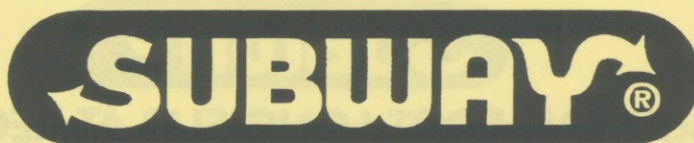

8. With the clinch knot pulled tight and clipped, the Bimini Twist is completed.

Myself and several of our club members have received an anonymous flyer, regarding an Amended Proposal by the U.S. Department of the Interior / Organ Pipe National Monument, and numerous questions have been raised regarding said Amended Proposal.

After reviewing the Amended Proposal, the following items *appear to be the proposed changes:

1. An entrance gate to Organ Pipe National Monument
2. A reduction in speed to 45 mph, only at the gate site

* I use the word "**appear**", as the Amended Proposal includes numerous reports and is several hundred pages in length. It is not always easy to extract the pertinent information, and what is pertinent to me may not be pertinent to you.

The Amended Proposal affects the entire membership and your response to these issues, is important. Please take a minute to write your response on the reverse side of this notice, and mail or fax a copy to the parties below, or to the undersigned.

To have a copy of the Amended Proposal mailed to you, so that you personally can review the document, send your request to:

**National Park Service, Organ Pipe National Monument
Rt. 1, Box 100, Ajo, AZ 85321**

Thank you for taking the time to respond to this matter. It is important that the people directly affected by the **NUMEROUS** proposals, submitted by the National Park Service, voice their opinions.

All written responses must be received prior to June 12. Therefore, if you want your response to be included in a bulk mailing from CBSC, please mail them no later than May 20th, to Pat Scalberg, Cholla Bay Sportsmen's Club, P.O. Box 7171, Phoenix, AZ 85011.

Cholla Chapter Chitter Chatter

by Pat Goodin

Our April meeting was held at the Puesta del Sol Restaurant and again, near 80 members and guests. Everyone seemed to be enjoying the good margaritas and other drinks during happy hour and during the meal. And it was a good meal - Mexican food combination plates, served by the friendly WAIT-ERS who also seemed to be having fun. Thanks Puesta del Sol. It was a good job. Oh, we also had good flan for dessert. Mmmm, good.

Guest were:

Chuck & Joan Dernberger - Tucson Chapter
Ivan & Maxine Marsmen - (Ivan is Ila Ketelhut's twin brother, and Terry Beasley's brother also)
Smokey Beall
Bill & Sharon Frey
Rick Bondor
Millie Canger
Eileen McLaughen
Nancy Moody

A short business meeting was held. Members were reminded about the next derby weekend April 26, 27 & 28. Cholla Chapter will be in charge of the steak dinner this year on Sunday, May 26th. Tickets can be purchased from Dave & Kelley Adams in Phoenix, John & Nancy Warren in Las Conchas, Ship's Store, The Peterson's or the Goodins in Cholla Bay. Cholla members will be asked to help at the dinner.

After the meeting, the high light of the evening - PRIZES! VP Doug Jones and Tony Rimsza awarded the prizes to the lucky winners.

We were saddened to learn of the sudden death of Elwood Johnson. I don't know if he was a Cholla Bay Sportsmen's Club member or not - possibly another chapter. However, we send our sympathy to his family.

Our May meeting will be the annual luau and will be held at the home of Evelyn Fought in Las Conchas. It's sure to be a fun evening.

THOUGHTS FOR THE MONTH:

Sometimes it's good to pause in the pursuit of happiness, and just be happy.

Reputations are made in minutes - characters are built in a lifetime.

Have you ever noticed that some TV commentators talk because they have something to say, while others appear to talk because they have to say something.

Improved Clinch Knot

This is a basic knot everyone should learn for tying lines or leaders to hooks or lures with straight eyes, and for tying on swivels, snap swivels, etc. This knot is dependable, easy and retains nearly 100% of line strength.

1

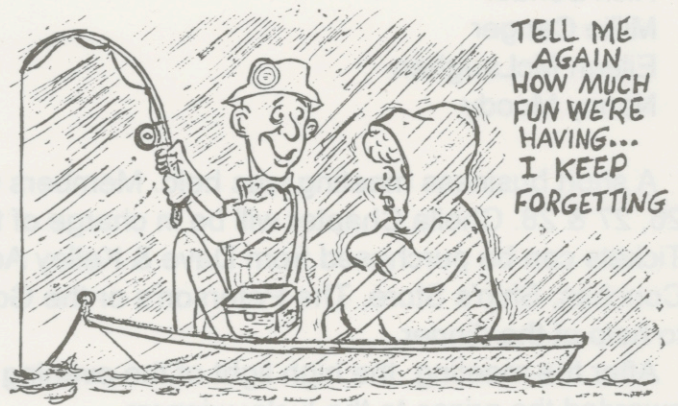

2

Stick the end of the monofilament line through the eye and make at least five twists around the line. Then push the end through the first loop (nearest the eye) and then back through the big loop, as shown in Fig. 1. Holding the lure or swivel and the line, pull the knot tight so it looks like the knot in Fig. 2. Cut off the end closely. Five turns around the line are essential for proper strength. If more than six turns are made, the knot can't be pulled tight enough. The knot must be pulled tight so the monofilament won't slip and cut itself. When using heavy monofilament, wind a rag around your hand to protect it while pulling the knot tight. Three or four turns are enough for extremely heavy monofilament, such as 60lb. test and stronger.

DON'T FORGET THIS YEAR'S FISHING DERBY SHIRTS.

There are still T-shirts, tanks, polo's, hats and beach tote bags available, all in a variety of sizes and colors.

All items are available through Betty Horton at Ship's Store in Cholla or by the Radio Shack on Derby weekends. If you can't make it down to Cholla to get one of these shirts, just ask anyone who is going down to pick you up one or two.

Cholla High Profile Boat Owners

The power lines are being installed in Cholla Bay. Last weekend the *Adrienne* was being taken back to the skipper's house and the launcher driver veered off through the desert. The skipper and crew looked up and realized he was avoiding the newly strung power lines that the mast would have hit had he continued on his normal route. Tom Banks and Bill Yonker have moved their boats to a place closer to the water so they don't get blocked out. Unfortunately, there are few if any safe places because the drop lines from the power poles to each individual property will come in at 20 feet off the ground. Since there will be some sag, the lines will probably be as low at 18 or 19 feet over the edge of the roads,

Obviously this will impact many high profile power boats as well as sail boats. A real safety hazard is being created because of the power lines. Pete Peterson, president of the Cholla Homeowners Association advised that special transformers are required for underground drop lines and the contractor has only ordered transformers for aerial drops. Basically nothing has been done at this point to preserve the boating lifestyle in Cholla.

Here are some suggestions for resolving this problem. We are open to any other ideas, so please let us know.

1. Bury some of the main power lines to create a corridor from storage areas to the water. This would also require the burial of the drop lines going to the residences.
2. Create a storage area where there would be no lines at all between it and the water.
3. Create corridors to as many current residents with high profile boats as possible.

A storage yard would need electrical power for tools and battery charging, water for cleaning, and good security. We hope the developer would provide the land and facilities at no charge to existing resident-owners of high profile boats since most of us purchased a bank trust because of the ease of access for our boats.

There will be a meeting on Saturday, April 27th at 0800MDT (0700MST or Arizona time) at my house, lot 190 located about 12 houses West of J.J.'s Cantina on the water. We need a good showing so we can appear at the Homeowners meeting later that morning to present our case. Please contact everyone you know that would be interested and have them contact me if they can't attend. The best way to contact me is via fax or email.

Sincerely yours,

Roger Harmon

QUALITY WORK - AFFORDABLE PRICES

PROTECT YOUR EYES FROM THE SUN

Most sunglasses block ultraviolet rays but some, particularly of the plastic variety, fail to block infrared rays. Both can damage eyesight. Green or gray lenses of high-quality optic glass provide protection from both. The best color value evidently is transmitted by natural gray lenses, which view all colors evenly with true value.

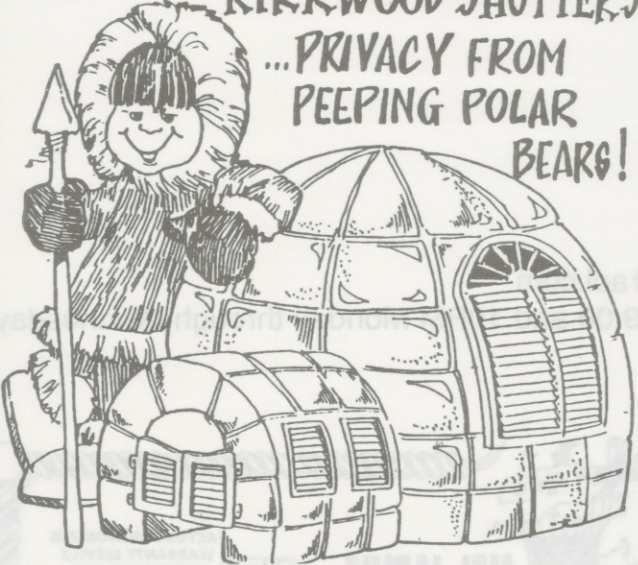

Leading manufacture's suggest a test for sunglasses efficiency. Put on the pair being considered and look in the mirror. If you can see your eyes easily, the lenses are not dark enough for adequate protection from sun glare. Yellow lenses are for hazy days only because they do the opposite of what sunglasses are intended to do: they magnify light intensity instead of diminishing it.

Polarized lenses eliminate excessive glare by means of a polarized layer of material sandwiched between two pieces of glass which then are pressed into proper curvature. They can be made to prescription. The polarized layer helps when looking downward but not when looking ahead, such as at a 90° angle. Then, we have to depend on the outside layers of colored glass (or plastic) to do the job. Plastic lenses serve their purpose only to a degree because they are soft and very easily scratched, so high-quality ones of optical glass are well worth the added cost.

The modern range in protective glasses is too complex to more than touch on here. Suffice it to say that sunglasses can be obtained with photochromatic polarized lenses (which change from light to dark depending on the intensity of the sun's rays) and that many types can be had as bifocals.

One also should consider, particularly in tropic climates, the fact that light can leak in around the edges of sunglasses. For this reason glasses that enclose the entire eye area, such as skiers and mountain climbers use, provide added protection. Such "goggles" may be considered unattractive for fishing, but they are excellent protection from flying hooks.

Finally, to prevent dropping glasses overboard, cords, elastic and other-wise, are available that go around the neck and fasten to the frames. They allow you to pull off your glasses and let them hang against your chest.

CONGRATULATIONS!

On March 31 long-time Chollan Grace Schoonover was recognized as Avocational Archaeologist of the Year by the Arizona Archaeology Advisory Commission. The award is presented to individuals that have contributed time and energy to promoting the protection and preservation of, and education about, Arizona's non-renewable archaeological resources.

The award was presented at the Pueblo Grande Museum in conjunction with the 1996 Arizona Archaeology Fair.

Fish Math

If you lack a scale, the weight of your fish can be determined quite accurately with a tape measure. There are small metal ones that wind up, but they can get messy with fish slime. Almost weightless and cheaper are the yard-long cloth ones pilfered from the family sewing basket, and these can be washed.

To determine the weight of a fish, just measure its length (L) and girth (G). the formula is:

$$G^2 \times L \div 800 = W \text{ (Weight)}$$

For example, if the fish is 18 inches long and 10 inches in girth, square the girth (100). Multiplying by 18 inches (Length) gives 1800, divide by 800 equals 2.25 pounds.

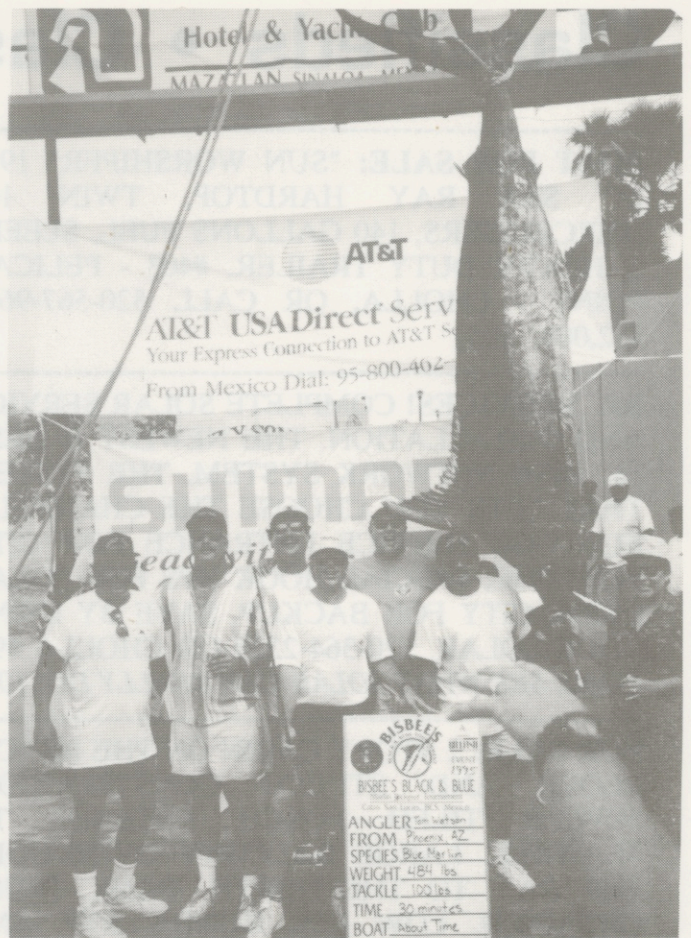

This formula works accurately for fish up to about 15 pounds, but it deviates somewhat when they are larger.
